1. INTRODUCTION

This pesticide use notification plan has been prepared in accordance with the requirements of the Pesticides Regulation 2009 (the Regulation).

The plan sets out how Bogan Shire Council will notify members of the community of pesticide applications it makes or allows to be made to outdoor public places that it owns or controls.

The term 'pesticide' is applied to chemicals used to kill pests and minimise their impact on agriculture, health and other human interests. Pesticides are often classified according to the organisms which they are used to control, e.g. fungicides, herbicides, insecticides, molluscicides, nematocides, rodenticides, algaecides, baits, repellents etc.

Bogan Shire Council ensures that staff and contractors adopt best management practices in the application of pesticides to public places minimising harm to the community or the environment..

2. PUBLIC PLACES COVERED BY THIS PLAN

Bogan Shire Council proposes to use or allow the use of pesticides in the following categories of outdoor public places that it owns or controls in Bogan Shire:

- public gardens
- parks
- playgrounds
- picnic areas
- sporting fields and ovals
- public land owned or controlled by the Bogan Shire Council, including:
 - road verges and reserves
 - laneways and pathways
 - road, rail, utility or other easements accessible to the public
 - drains
 - showground
 - camping grounds
 - saleyards
 - cemeteries
 - Council owned public buildings
- grounds of government schools or TAFE facilities.

Bogan Shire Council estimate of the level of community use, regular user groups and types of pesticide use in each of these categories of public places is summarised in the following table.
